Hello All,

I posted some time ago about trying to reach G8BPQ. I received a variety
of responses...I also sent to each of them...1 responded and then disappeared.
I am still looking to establish some sort of link to G8BPQ. Does he have
an internet address, if so, what is it? Or, does he have a PACKET Address
that is good? Also, are there any internet<==>packet gateways in Europe
if he has a good packet address?

All help would be greatly appreciated.
